**Subject:** RE: November 16 meeting

Hi, Chris. Let me check with my team and make sure your list includes everything we need to discuss. Anything else you'd like to discuss or need to see beforehand, Dan, Matt, Pete, Tom?

Do we have all updated reports/data for all four of those items via emails from you? I don't think we've received any additional information on C29/C41 re Aerojet's analysis of data and justification for mitigation or no mitigation for each area. I'm still on vacation and behind in emails though, so please correct me if I'm wrong there.

Dan and Matt are planning to attend the meeting at Aerojet on 16 Jan, but not on 17 Jan. It would likely be best if you could have all discussion items requiring Dan and Matt's participation to be covered on 16 Jan (on-site and off-site VI, A40 ambient air, VI at C29/C41, A40 HHRA).

Thank you and have a good weekend,  
Lynn

**Subject:** November 16 meeting

Hi Lynn – I am anticipating a discussion on the following vapor topics on November 16:

- 1) Results of indoor air samples, screening analysis (Tier system), and selection of future sample locations and frequency
- 2) Results of Gold River off-site soil vapor sampling and determination on whether additional investigation is necessary
- 3) Area 40 ambient air results
- 4) C29/C41 soil vapor investigation

If you agree with all of these topics, I will work on getting updated figures and tables prepared and sent prior to the meeting.

Are there additional items you would like to discuss on the 16<sup>th</sup>? Is Dan planning on participating in the November 17 technical meeting to discuss the Area 40 HHRA? If not, we should discuss this on the 16<sup>th</sup> also.

Chris
